```
interface Mail {  
    void SendMail();  
    void log();  
}
```

```
class MailImpl implements Mail {  
    @Override  
    public void SendMail() {  
        System.out.println("Gui mail");  
    }
```

```
    @Override  
    public void log() {  
        System.out.println("Day Nhap");  
    }
```

```
public class Test {  
    public static void main (String[] args) {  
        MailImpl a = new MailImpl();  
        a.SendMail();  
        a.log();  
    }
```
